AIMS AND OBJECTIVES

Having a long experience in the field of competitive examinations and after lots of series of conferences, we establish such a unique school in Dehradun, which to the best of our knowledge does not exist even world over. No doubt it is not easy for you to trust in us after all it is the question of your child's career. However, you are requested and expected to visit our school once to know Why "Doon Woods Global School" is ultimate!

1 - If you see almost all the schools in India under any board, have the same traditional pattern in which parents have to suffer a lot. They are always worried about tuitions for their children. Have you ever thought that after paying too much school fees and spending 6 to 8 hours in the school by the students why do you search for the best tuition teachers? What the schools are teaching! And in case a child is little bit weak in some of the subjects, it becomes a real headache for the parents. Schools do not wear any responsibility of the child rather they would call you to give you warning about the performance of the child. You get tired of paying tuition fees apart from the regular fees of the school. Even after child passes out the school, parents have to send their children to the costly coaching classes for Medical and Engineering. And ultimately they have to spend a lot of money on their children to do some degree courses, and even then there is no guarantee that the child will get a good job or settle somewhere.

Please take notice of all these things indited above. Think twice before you admit your child in any of the schools.

2 - **“DOON WOODS GLOBAL SCHOOL”** in this case is very – very unique. Once your child is admitted to our school, the first unexpected thing which you would experience is that you would be free from all the worries regarding the future of your child.

3 - No tension of tuitions, be it at school level or at medical or engineering level or at any other level such as IAS, PCS, Banks, SSC, Defence and so on.

4 - The School is solemnly dedicated to make your child extraordinarily excellent in Maths, Physics and Chemistry along with other important subjects.

5 - English would be taught in a way that everybody would crush his finger between the teeth once he comes in the contact of your child. Hindi will also be given full respect and children will become well verse in it too.

6 - A highly authentic counselling Audio-Visual studio will be set up in the school which would comprise a documentary on almost all the career opportunities available all over the world.

7 - From the VII Standard onwards your child would be steered in a way, he/she wants to become in his/her life.

8 - As we know **“HEALTH IS WEALTH”**, so the school is determined to give priority to the health of children. Physical Training, Games and Athletics are employed to the best advantage to promote physical development and a healthy spirit of competition. The School has ample playing fields and provides facilities for games such as Football, Cricket, Basketball, Chess etc.

9 - Students found talented in sports and other activities would be fully supported by the school to make them reach to the top of their respective activities.
